

# Surface to Springs

## Regional Conservation Partnership Program (RCPP) Financial Assistance for Private Landowners

Announcing \$200,000 in funding for land management contracts in the Surface to Springs Regional Partnership Program (RCCP) project area. RCPP contracts provide cost share payments for land management activities that benefit wildlife, imperiled species habitat and watershed protection.

### Surface to Springs Partnership Goals:

- Surface to Springs land management contracts will address natural resource goals ensuring long term protection of land, source water depletion, and aquatic habitat within the project area.
- Projects will optimize wildlife habitat, rare natural communities, and benefit surface and groundwater.

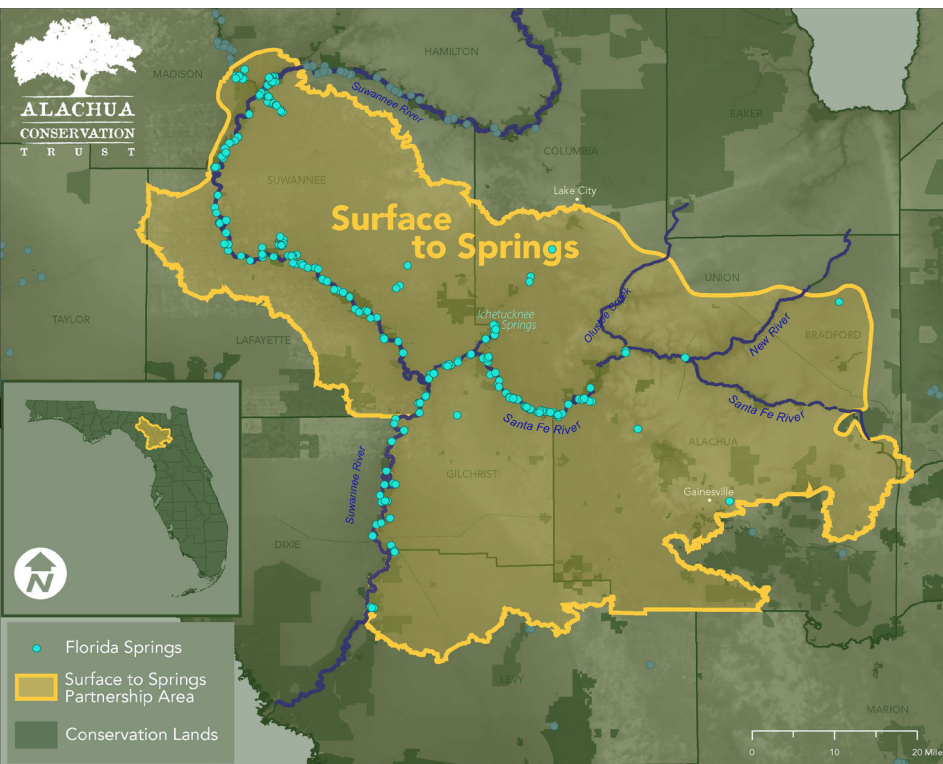

### Available practices include but are not limited to:

- Row crop transition to pasture, hay and timber, well decommissioning, prescribed grazing nutrient management, cover crop.
- Forest management including longleaf planting, prescribed fire, brush management.
